Code

```
public class CaseStudy2 {  
    public static void main(String[] args) {  
        int i = 0;  
        do {  
            int j = 0;  
            do {  
                System.out.println("*");  
                j++;  
            } while (j <= i);  
  
            System.out.println();  
            i++;  
        } while (i < 10);  
    }  
}
```
